

Check for plagiarism

You sweated bullets to write your material and then you suddenly find out that some jerk is using your material and passing it off as his own!

So how do you find out if someone is using your material?

Easy – Do what the major publishers and most successful authors and copywriters do - just use one of the following software packages to keep track of your material.

PlagScan www.PlagScan.com

Worried that your written material is being unfairly used by others?

PlagScan offers free, automatic and efficient duplicate content analysis. This is a service for locating copies of your material that have been plagiarized from the Internet or by other web sites. There is a maximum allowable files size of 300kB or 1000 words.

Grammarly

www.grammarly.com

Grammarly is an automated proofreader and plagiarism checker. It corrects up to 10 times as many mistakes as other word processors.

Free to try - \$29.95 per month

Search for copies of your web pages on the web.

If you are concerned that people are copying and reusing your website material without acknowledgement or payment, this site will let you search for violators.

Protecting Your Copyrighted Materials

One of the big questions in both my web site and self-publishing seminars relates to methods for protecting original material from being copied and reused without payment or permission.

This is a GREAT article about what works and what doesn't when it comes to protecting your original graphic art.

This is reproduced by acknowledging the author as requested:

If you would like to share this article the short URL is:

Free images for your website

The BEST images come from subscription sites like www.ClipArt.com and <http://www.istockphoto.com> but if you don't want to pay for your graphics, try these sites.
